Krishna Rangwani

Full-Stack & AI/ML Developer | Open to Work

+91-7976572988 | krishnarangwani88@gmail.com | LinkedIn | GitHub | LeetCode | Portfolio

Summary

Full-Stack and AI/ML developer who ships production apps for real clients: 2 platforms serving 200+ users, with 67% faster load times and 80% less manual work. Technovate 3.0 Bronze medalist (150+ teams). Seeking SDE and AI/ML internships.

Education

UIET, Panjab University **2024–2028**

B.E. in Information Technology | CGPA: 9.6 / 10 *Chandigarh*

Technical Skills & Coursework

AI & ML: LLM Integration (Gemini API), AI Orchestration, Prompt Engineering, NLP, Machine Learning, Deep Learning, Recommendation Systems, Random Forest, Scikit-learn, NumPy, Pandas, Matplotlib
Languages: Python, C++, JavaScript, SQL
Full-Stack: React.js, Node.js, Express.js, RESTful APIs, JWT Authentication, RBAC, Tailwind CSS, HTML, CSS
Databases & Tools: MongoDB, MySQL, SQLite, Redis, Caching, System Design, Git, GitHub, Vite
Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

Experience

SKBR Exports LINK **Jun 2026 – Jul 2026**

App Developer (Internship) | MongoDB, Express.js, React.js, Node.js, Redis, JWT, REST APIs *Remote*

- Analyzed the client's manual trading workflow and built a real-time MERN platform (REST APIs, JWT, RBAC) with 3 roles (Admin, Broker, Miller) serving **100+ users** (50 brokers, 50 millers).
- Cut recording time from **10 min to 2 min (80% faster)** across ∼10 daily transactions with verifiable digital records.
- Built a one-click **demand broadcast** to 50 brokers (replacing one-by-one calls) plus billing, invoicing, godown tracking.
- Cut load time from **3s to 1s (67%)** via Redis caching, load-based optimization, and redundant online/offline databases.

Learning Zone LINK **Jan 2026 – Mar 2026**

Software Developer (Internship) | MySQL, Redis, Google Drive, Role-Based Authentication *Hybrid*

- Built a full-stack institute platform from scratch for **50 students, 5 teachers, 50 parents (∼100 daily users)**.
- Built role-based dashboards (attendance, notes, classes) and digitized **a year of fee records** with reminders.
- Added parent notifications and an **AI homework scheduler and timetable generator**, cutting admin workload.
- Cut load time from **3s to 1s (67%)** via Redis caching, load-based optimization, and redundant databases.

Projects

DevConnect – AI Career Platform Live Demo | *React.js, Node.js, Express.js, MongoDB, Gemini API* **Apr 2026**

- Built a two-sided candidate/recruiter platform unifying profiles, projects, and GitHub to cut HR screening time; **Bronze Medal, Technovate 3.0 (150+ teams)**.
- Designed a **ranking algorithm** on 5 signals (skills, projects, ATS score, GitHub, internships) using statistics.
- Orchestrated Gemini API (structured outputs) for resume generation, ATS analysis, and skill extraction.
- Added a pre-trained ML model for ATS accuracy, AI rank-improvement tips, referrals, and streak tracking.

WanderMate AI – Travel Platform Live Demo | *React.js, Vite, Tailwind CSS, Python, Flask, SQLite* **Ongoing**

- Team lead of an open-source platform with **3 account types** (traveler, influencer, local business) promoting local vendors and tourism across India.
- Designed a **token, credit, and score-based discount system** rewarding all 3 account types.
- Built an AI chatbot and guided flow agent (LLM orchestration) generating itineraries by budget and interests.
- Built a taste-based recommender (destinations, influencers) plus cheapest-flight discovery and deal analysis.

Cricket Species Acoustic Classification (Faculty-Guided Research) | *Python, Scikit-learn, Random Forest* **Ongoing**

- Building an ML classifier on **4,500+ chirp recordings** (Random Forest); spectrogram-based CNN planned.

Certifications & Leadership

Udemy: MERN Stack Development • ML & Data Science Bootcamp • AI Practitioner | SKBR Internship Certificate
Bronze Medalist & Team Lead – Technovate 3.0 (2026): Podium finish among 150+ teams.
Member & Lead, Training & Placement Cell – UIET: Coordinated placement drives and led a recruitment team.
